

The way we search for information and interact has changed dramatically over the years. Tweets, posts and instant messages have become the new handshake. Twitter, Facebook, Trip Advisor, Google, blogs, instant messages, email... the list goes on.

Tourism Abbotsford's team of Social Media Maven's are leading the way. They are the first to know about the best places to go, events taking place, breaking news and like to share their quirky Abbotsford facts. The team works closely with new and existing businesses in Abbotsford and the Fraser Valley sharing information, photos and articles to all their friends and followers.
